

Penfield Homestead Museum

Visit the place where modern industrial technology was born - Historic Ironville.

See a replica of Joseph Henry's Electromagnet that gave birth to the Electric Age and inspired Thomas Alva Edison.

The Homestead will bring you back to an earlier America featuring rooms dedicated to iron mining, Civil War, and everyday life in the 19th century.

Explore the remains of an Iron Company complex with a walking tour hugging Penfield Pond nestled in the Adirondacks.

Let our extensive Research and Genealogy Library bring the past into focus.

Remember your visit with us with a trip to our Gift Shop featuring Adirondack books and more.

www.penfieldmuseum.org
